

Packaging and Packaging Waste Regulation (PPWR) compliance declaration

Normagrup Technology S.A. hereby declares that packaging used for the supply of our products is compliant, to the best of our knowledge, with the applicable requirements of **Regulation (EU) 2025/40** of the European Parliament and of the Council of 19 December 2024 on **Packaging and Packaging Waste (PPWR)**.

Normagrup Technology S.A. is committed to ensuring that packaging placed on the European Union market is designed, manufactured and managed in accordance with the principles established by the PPWR, including the prevention of packaging waste, the minimisation of packaging volume and weight, the facilitation of reuse and recycling, and the reduction of environmental impact throughout the packaging life cycle.

To the best of our knowledge and based on information provided by our suppliers, the packaging materials used for our products comply with the applicable substance restrictions established by the PPWR, including requirements related to substances of concern in packaging.

This declaration is based on supplier statements, material specifications and information available at the date of issue and is valid unless superseded by changes in the applicable legislation or product design. Normagrup Technology S.A. maintains processes to assess and monitor packaging compliance and works with its supply chain to ensure that packaging components meet the relevant regulatory requirements in force at the time of placing products on the EU market.
